

Summer Term in Year 1 2021

I cannot believe we have come to the end of Year 1 already! It has been another unconventional year of teaching, with a combination of Zoom lessons and school, but you have all made me so proud! Our Year 1 bubble has worked exceptionally hard. The quick adjustments that the children have made has been incredible. They truly are a great class!

We have been very busy this term and have completed so many learning experiences such as sports week, making sculptures and learning about the seaside! This term we have been consolidating our phonics and learning all about poems and the structure of them. In maths we have been focusing on numbers within the 100 square and solving calculations within this. We have been adding and taking away, but not crossing the tens barrier. We have also been learning all about simple fractions such as halves and quarters.

Over the holidays make sure the children continue to read and apply their phonics and spellings in writing activities. Please try to continue with some practical maths activities. I wish them all best in Year 2.

I hope everyone has a fantastic summer and a restful break. Thank you for all of your cooperation this year, it has been much appreciated.

Many Thanks,
Miss McCarthy
