

## Spring Term Letter

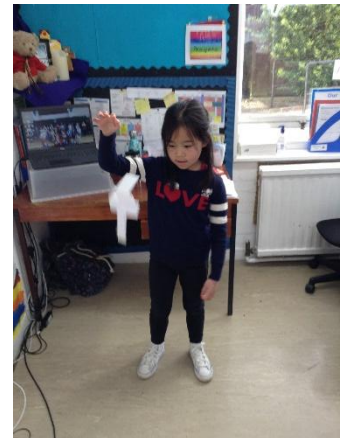

What a term this has been... I am so proud of how the children worked so hard at home and how they have settled back to school. It has been so wonderful to teach them from a classroom again. We are all remembering the importance of listening to each other again and remembering that there isn't a 'mute' button in school!

We have been focusing on the story of 'The Magic Finger' which the children have enjoyed. The children tried to persuade me to give them a magical finger by explaining what their magic finger would do and why it would be so important for them to have it. We had some lovely ideas such as turning people happy when they are sad, making poor people rich, helping animals, making medicine and even making endless toys!

In maths we have been focusing on addition and subtraction through partitioning and fractions. In geography we have been continuing to look at the UK, following instructions, reading a compass and we have even created our own maps and a route. Next term, we are hoping to take our maps into Petts Wood and see if our route works.

In science we have loved our experiments, learning the importance of washing our hands and creating spinners in class and seeing if we can make them spin quicker!

You should be so proud of your child. They are amazing. I hope you have a wonderful Easter and a well-deserved rest.

Mrs Martin
